

LEARNING EACH OTHER'S LANGUAGE

MUNICIPALITY OF KAMENICA
KAMENICA, KOSOVO

DIVERSE PEOPLE PARTICIPATE

More than 100 citizens of different ages, backgrounds and genders have been part of the project so far. Other municipalities learned from Kamenica and **implemented similar programmes**. In the future the project aims to **include more people, be more visible** and have a permanent location.

BARRIERS OF COMMUNICATION

In Kamenica some people speak only the Serbian or the Albanian language. This linguistic barrier leads to **no contact, non-understanding, stereotypes and judgemental attitudes**. Moreover, in many cases it causes unemployment.

LEARNING LANGUAGE & JOINT ACTIVITIES

Aiming to reintegrate the ethnicities, the municipality started courses for both languages with tailored booklets and an interactive digital platform. Besides learning each other's language, the participants visit **cultural and religious sites** and **discuss common problems** and **visions for the future**.
